

National Competition on Digitalisation, Robotics & Automation

26 -27 September 2019 | Crowne Plaza Gurgaon

Digitalisation, Robotics and Automation are fundamentally changing the manufacturing / service processes across the globe as the key drivers for the **4th Industrial Revolution (Industry 4.0)**. Their structured implementation leads to major improvements in quality, raising of productivity levels, improvements in operational efficiencies and real time monitoring and control of end-to-end business processes through data analytics.

With a view to create a repository of the best and innovative practices in Digitalization, Robotics & Automation among Indian industries, **Confederation of Indian Industry (CII) is organizing a National Competition on Digitalisation, Robotics and Automation (DRA) – A Journey Towards Industry 4.0.** The competition is intended to serve as a benchmarking forum and showcase the best cases demonstrating adaptation of the emerging world class technologies and building resources in the journey towards Industry 4.0 implementation.

The competition will bring together the designers, practioners and innovators of DRA from a wide range of industrial activities including digital product / process design, mass customization, robotics, real time monitoring and control, logistics and material movement. Besides recognizing the outstanding achievements, the forum will provide rare learning opportunity of the state-of-the art to all those taking part of attending the event.

OBJECTIVES

- To recognize the best in class practices for advancement & implementation of Digitalisation, Robotics & Automation (Industry 4.0)
- To provide a cross learning and sharing platform on how the various components of Industry 4.0 (Digitalisation / Robotics / Automation etc.) are implemented by organizations in different processes & context.
- An opportunity to interact with the best minds in the country engaged in adapting and harnessing digital manufacturing or smart manufacturing
- To bring Indian Industry together for cross learning and advancement on a journey towards industry 4.0 through learn & share approach

***To companies advancing and implementing Digitalization / Robotics / Automation (Journey Towards Industry 4.0) or as decided by Jury Panel**

GUIDELINES

- Participating companies should submit "DRA Case Studies" implemented in case studies
- Application should be submitted in the format given in "DRA Application Form" i.e. Annexure-2
- "DRA Summary Sheet" should be submitted along with "Power point presentation" before last date of application submission
- Presentation time will be 8+2 minutes & maximum 25 slides, supported by a small movie clips wherever applicable. 3 minutes Q&A session by Jury Panel additional
- Presentation to be made in specified format i.e. "Presentation Template-3"
